The Interactive Super Bright DLP Android Smart Projector features a 1.6 GHz processor operating Android 4.2 OS with WiFi and Bluetooth connectivity. It is equipped with advance Interactive Whiteboard capability that works with the internal Android OS or with external PC. Powered by the latest LED projection technology, it delivers clear, sharp, bright, dazzling color quality images with an operating life of over 30,000 hours. The ML70-I is the ideal companion for travelling executives as well as teachers and professors.

The built-in Android allows playback of video, photos or access documents such as PDF, Microsoft Word, Excel, Powerpoint files directly through the projector's operating system. APPs can be downloaded and installed to expand the function of the projector.

There are two HDMI inputs which supports 3D for connection to computers, Blu-ray disk players, game consoles and more. There is a full assortment of I/O ports including USB, SD Card, HDMI/MHL and Composite Video for easy connection to most analog and digital devices. Using DLNA, Smartphones or tablets can connect wirelessly to the projector.
